# HSE POLICY STATEMENT

It is the policy of GESBI ENGINEERING to engage in operations and contracts in such a way that conditions that predispose health hazards, accidents, environmental pollution and insecurity are prevented. Where it is not practicable to remove all hazards, employees who are exposed shall be protected. Proper attention will be paid to Community Affairs, Health, Safety, Environmental and Security conditions at the place of work and as far as practicable ensure its freedom from risk, disease and thefts.

Management will follow up and recognize practicable recommendation in pursuance of these Community Affairs, Health, Safety, Environmental and Security Policy. Above all, all applicable regulations and statutory requirements imposed upon practitioners in the Marine Industry shall be observed and complied with.

In laying down this policy which is centered on the preservation of human life, the environment and property, we have the firm belief that CASHES management is a line responsibility and everyone is responsible for CASHES. The co-operation of all is therefore expected to assist in the delivery of a safe project carried out without bloodshed, pollution or loss.

# NIGERIAN LOCAL CONTENT POLICY STATEMENT

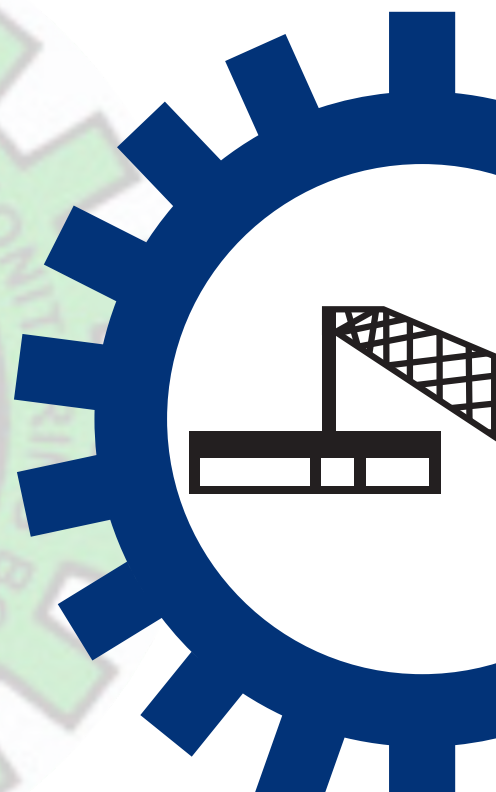

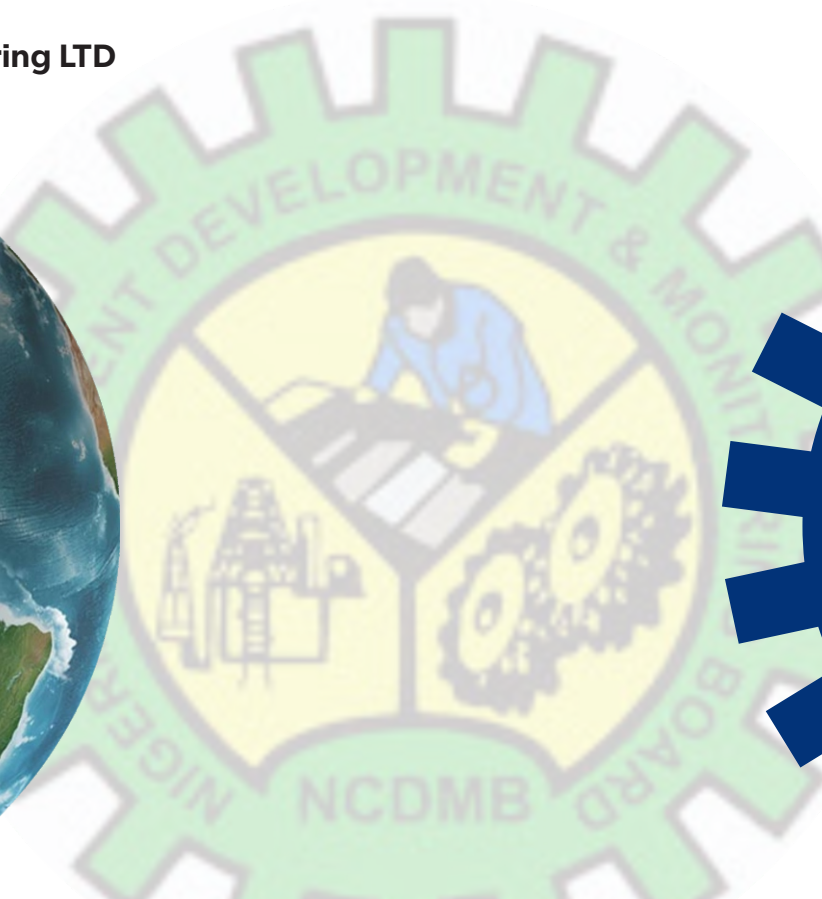

The Nigerian Oil and Gas Development Law 2010 defines local content as “the quantum of composite value added to or created in Nigeria through utilization of Nigerian resources and services in the petroleum industry resulting in the development of indigenous capability without compromising quality, health, safety and environmental standards

## KEY THRUSTS OF THE NOGICDACT OF 2010

- ✦ Integrate oil producing communities into the oil and gas value chain.
- ✦ Foster institutional collaboration.
- ✦ Maximize participation of Nigerians in oil and gas activities.
- ✦ Link oil and gas sector to other sectors of the economy.
- ✦ Maximize utilization of Nigerian resources i.e. goods, services and assets.
- ✦ Attract investments to the Nigeria oil and gas sector (service providers, equipment suppliers etc)

GESBI ENGINEERING has established an independent Nigerian Local Content Department to both collate and decipher information on the state of affairs of local content in Nigeria and to monitor, audit and ensure compliance with planned Local Content Objectives.
